Source: Edmunds<br> \* Built in the USA, the 2014 Chevrolet Sonic is the second-smallest car to wear the bow-tie badge but its abilities are far from diminutive. The Sonic delivers fuel economy that's equal to or better than its rivals and driving dynamics that range from comfortable and nimble to downright sporty. The Sonic is no ordinary small car. It offers loads of great standard features such as Bluetooth, air conditioning, and audio controls on the steering wheel. The MyLink infotainment system that allows for control of cell phone-enabled apps is available on LS and LT models, and standard on LTZ and RS. New for 2014, a rear-vision camera is available on the LT, and comes standard on the LTZ and RS models. Plus, you can get an available advanced safety package with Lane Departure Warning and Forward Collision Alert. Further, the LT Promotional Package includes a power sunroof, MyLink radio, and front fog lights. Around town and on the highway, the 2014 Chevy Sonic sets a new standard for subcompact driving refinement, as it drives more like a bigger, pricier car than any of its competitors. One of the front-wheel-drive Sonic's best tricks is how it manages to deliver both segment-leading highway manners with impressive road-holding abilities. Inside the 2014 Chevy Sonic is a mix of conservative design with a touch of motorcycle inspiration in the form of a compact gauge cluster with a digital speedometer. In addition, check out the sporty RS that includes a stiffer suspension, leather seats and unique 17-inch wheels. The 2014 Chevy Sonic is the quietest and most composed subcompact car you can buy. Combined with more conventional styling than some of its key competitors, the Sonic is destined to become a mass-market favorite. Source: The Manufacturer Summary
